

Series PB 5010

Five-spindle Paper Drilling Machine

Paper drilling machine with 1-5 spindles as stand version with automatic spindle stroke via foot-switch. Adjustment range of spindle 40-250mm. Automatic disposal of paper trimmings for each spindle. Drilling diameters from 2 to 10mm.

- Bench and stand version
- Sliding table with programme shaft for 6 adjustable hole centres
- Drill lubrication
- Drill cooling
- Infinitely feed variation

PB 5010

Features and Technical Equipment

No. of drilling spindles	2-5
Drilling spindle distance	40 - 250mm
Drilling diameter	2 - 10mm
Drilling speeds	2400 r.p.m.
Drill types	High-performance-steel, hard chrome, titanium / glide coating / detontation-coated
Drilling depth max.	60mm
Table size, fix table	800 x 415mm
Table size, sliding table	800 x 415mm
Throat depth	75mm
Displacement up to	450mm
Paper size	up to DIN A3
Materials	Paper / plastic / leather
Power supply	400V / 50Hz
Drive output	0,7 / 1,5kW
Machine Dimensions (H/W/D)	950 / 680 / 630mm (bench version, fix table) 950 / 750 / 770mm (bench version, sliding table) 1550 / 650 (750) / 700mm (stand version, foot-switch operation) 1450 / 910 / 660mm (stand version, fully automatic)
Weight	110 - 260kg (stand version, fully automatic)
Certified by	GS / CE
Options	Sliding table, programme shaft, automatic spindle stroke, foot-switch operation, sliding table, spindle lubrication, continuous rotation speed control, continuous throat depth adjustment. Further models and special designs on your request. Contact us!

All STAGO paper drilling machines are optionally available with a programme shaft for 6 adjustable hole centres
