

RENZ® WP 300

Automatic wire comb
binding element dispenser

**Binding speeds up to three times faster!
No more awkward wire handling!**

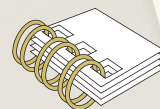

Renz RingWire® wire comb binding elements are taken automatically from Renz WirePack® packing and delivered straight into the wire holding mechanism for quick and easy loading of pre-punched documents onto the wire.

RENZ®

BINDING AND LAMINATING SYSTEMS

NEW

WP 300 can be attached to Renz ELC 360 electric closing machine to produce a high performance binding centre.

Order number 494720425

SPECIFICATIONS - AT A GLANCE

RENZ WP 300 Element dispenser

Length, width, height	54 cm x 36 cm x 29 cm
Working width	max. 300 mm
Weight	27 kg
Binding capacity in combination with ECL (depends on diameter and operator)	up to 400 pcs./h
Possible diameters	3/16" up to 1"
