

CREASING - PERFORATING MACHINE GPM 450

This creasing and perforating machine with working width 450 mm is designed for the final processing of graphic materials up to the A2 format. Creasing enables high-quality fold of digitally printed paper. By turning the upper (complete) creasing bar behind the perforating one and after turning over the lower combined bar, it is possible to carry out perforation. The machine can be controlled also by foot pedal.

- Heavy duty metal construction
- Designed for both creasing and perforating
- Useful also for creasing laminated documents
- High-quality “anvil” perforation
- Three sizes of creasing bars
- Large working desktop (up to A2 format)
- Very helpful foot pedal
